SOFTWARE DEVELOPER

As a Computer Science major, I possess a strong skill set in programming languages like Python, Java, C#, C, and C++. I have hands-on experience in web development with technologies including Node.js, CSS, and JavaScript, along with knowledge of Firestore and Firebase. With a keen interest in cloud development and game development, I am committed to continuous learning and problem-solving. My analytical abilities and communication skills make me a valuable contributor to dynamic projects. I am eager to apply my skills in a challenging, innovative environment.

KEY COMPETENCIES

Programming Proficiency	Object-Oriented Programming	APIs and Microservices
Web Development	Full-Stack Development	Database Knowledge
Software Development	Version Control (Git)	Performance Optimization

TECHNICAL SKILLS

Python	JavaScript	HTML
Java	Node.js	CSS
C++	React	Firebase
C#	Next.js	FireStore

PROFESSIONAL EXPERIENCE

I have completed multiple projects that demonstrate my ability to apply my programming skills to real-world challenges. My experience includes developing websites, games, applications, and tools across various programming languages and frameworks, including Python, Java, C++, JavaScript, and web development technologies such as Node.js, Angular, and Ionic.

PERSONAL PROJECTS

Portfolio Website	Sudoku	Wordle
Song Association Helper	Racing Car Game	To-Do List WV
To-Do List DV	Minesweeper	SV Mod

Disclaimer: All the projects mentioned above, included detailed descriptions and code repositories can be viewed on my website portfolio

EDUCATION

Bachelor's Degree in Computer Science (Ongoing)
University of Florida, USA
AA in Computer Science (2023)
Miami Dade College, USA

LANGUAGES

Spanish (Native)	English (Fluent)
